KIBITZ GEN'L

Extract from FRAN 5684 (IN 27625), 14 Aug 1952

5. VULTURE (KIBITZ) caches always made by teams of approx three German speaking staff personnel. In each case cover has included emergency protective measures in liaison with CIC. KIBITZ plan to cache above ground (MGFA 6578) approved MGQW 15113. Contemplated same general technique so far entirely successful.

⌈ ⌋ Note: Above cable mainly concerned with Austria where several caches were recently discovered. Also concerned with OPC caching in Germany. Cable returned to EE/PP/G.
